

4 Courses

**Software Design as an
Element of the Software
Development Lifecycle**

**Software Design as an
Abstraction**

**Software Design Methods
and Tools**

**Software Design Threats and
Mitigations**

Nov 12, 2020

Kriztoper Urmeneta

has successfully completed the online, non-credit Specialization

Secure Software Design

This specialization is for those with limited workplace experience in software development to obtain the background, perspective and skills to recognize important security aspects of software they are expected to design. Mindsets and attitudes of successful designers--and hackers--are presented as well as project successes and failures

Albert E. Glock, Jr.
